Dutch and British Papers Alike Comment Most Bitterly Upon Brutal Crime Against Heroic Englishwoman, Miss Cavell

London, October 22.—The Times says: "The very spirit of Zebulun, in war time, broods over the whole brutal story of Miss Cavell. There is not in Europe, outside of Germany and the countries of her allies, a man who can read it without the deepest emotion of pity and shame. We do not know whether the hide-bound brutality of the military authorities, or the lying trickery of the civilian officials is the more repulsive."

The Daily Express says: "The whole empire will echo Sir Edward Grey's thanks to Mr. Whitlock for his splendid efforts to save Miss Cavell, whose execution is an affront to Spanish and American humanity. Germany is the parish of the nations."

CRIMES FOR VENGEANCE.

The Daily Mail, in an editorial says: "It is a deed which in horror and wicked purposelessness stuns the reader and cries to heaven for vengeance."

The Morning Post, in an editorial, says: "Surely such a story has never been presented to the modern world as is here unfolded."

The Daily Chronicle says: "The American legation at Brussels acted nobly. Comment is wasted on the story of the butchery. The sense of the civilized world can be left to judge between the hapless woman and her murderers."

The Daily Telegraph says: "We cannot be too grateful to those American and Spanish officials who worked with such passionate zeal in behalf of our unhappy countrywoman."

DUTCH PRESS BITTER.

Amsterdam, October 22.—The execution of Miss Edith Cavell is the subject of condemnatory editorials in the Dutch newspapers today.

De Vrije Pers says it trusts that a vigorous protest will be made from all sides, and adds:

"What more psychologists the German officials are. From their first request to Belgium for free passage, down through the Lusitania case, to the visits of sympathy to open towns, and finally incidents of the Cavell sort, the Germans have shown everywhere a lack of the most elementary conception of psychology."

Lord Derby Unfolds Plan That May Meet Recruiting Situation

London, October 26.—Lord Derby, whom the government has entrusted with the solving of the recruiting problem, addressing a mass meeting at the Mansion House yesterday afternoon, gave the gist of the plan with which he hoped to meet the situation.

"I suggest," he said, "that every man who recognizes that the state has a right to call on his services for her protection, should enlist at once. All those found physically fit and wishing to join the colors at once should do so, and the remainder continue at their usual vocations, subject to call when needed."

Unmarried and married men, Lord Derby explained, would be put into respective groups, and the bachelors called first. Married men would be called later, according to age. By such a system, he pointed out, there would be no sudden, unimaginable number of recruits, but a steady supply as needed by Lord Kitchener.

Someone had asked the speaker, he said, why recruiting was an urgent necessity, to which he replied: "Look up the map."

Lord Derby said that a fortnight

ago would be allowed men who were called to adjust their private affairs. He hoped that with a proper response it would be unnecessary to call the older married men; in any event these men would, so far as practicable, be placed in the medical and transport units.

"This is an honest attempt," declared Lord Derby, "to give every man a chance to do his duty; a last effort in behalf of voluntary service. I believe yet that the voluntary system can be made an unequalled success, but there is no time to lose."

The Western Fairs Association will hold a meeting in Edmonton today, the meeting beginning November 15th.

The Australian Cadets, travelling under the auspices of the Western Australian government, were given hearty receptions at Calgary and Edmonton last week.

They were welcomed at Edmonton by 1,000 Edmonton Cadets, Boy Scouts and the Newsboys' Band.

New York, October 21.—Long distance conversation by telephone was held today from Arlington, Virginia, to Paris, France, the voice speaking quite distinctly nearly 3,500 miles.

Honolulu, 8,700 miles from Paris, also heard the operator talking from Arlington, Virginia. This is the longest distance that has yet been recorded in telephony.

In the provincial appointments made by the Alberta government, Gerald O'Connor, of Sylvan Lake, appears as game guardian.

In an Edmonton exchange appears a cut of a tombstone, composed of an old lifeboat, erected by Canadian over the grave of one of their comrades, with the following words: "Poor Old Bill. He left his place with smiling gun and smiling face. But Bill went down in the good ship."

Will follow up and fill the gap.

Before an audience of over three hundred prominent citizens of Edmonton, at a luncheon tendered the visiting Australian cadets at noon, Thursday, in Macdonald hotel, Lieutenant J. J. Simons, under whose leadership the lads are touring the country, made a speech in eloquent terms the splendid history of Australia's response to the demand of the Empire in the present war, outlining the system of national military service which enabled the Commonwealth to raise more than 150,000 fully trained soldiers for service in the Dardanelles and under which will give an army of over 600,000 trained men before the end of 1918.

Calgary, October 26.—Col. E. A. Cruikshank, D.S.O., military district 13, is to be given the command of a brigade, and will go to England shortly, in the brief tenor of a message received in the city from Ottawa today. Further details are lacking, as Col. Cruikshank is just now on route from Ottawa to Calgary. He has been attending the conference of camp commanders, called by Major-General Sir Sam Hughes.

London, October 22.—King George has issued an appeal to his subjects to come forward voluntarily and aid Great Britain in her fight against the Germanic allies.

"More men and yet more," His Majesty says, "are wanted to keep my armies in the field, and through them to secure victory and an enduring peace."

The message of the King, issued by the official press bureau this evening, says:

"My people: At this grave moment in the struggle between my people and a higher organized enemy who has transgressed the laws of nations and changed the peace of the world, I appeal to you."

"I rejoice in my empire's efforts and I feel pride in the voluntary responses from my subjects all over the world, who have sacrificed home and fortune and life itself in order that another may not inherit the free empire which their ancestors and mine have built. I ask you to make good these sacrifices."

"The end is not in sight. More men and yet more are wanted to keep my armies in the field, and through them to secure victory and an enduring peace. In ancient days the darkest moment has ever preceded in men of our race the sternest resolve. I ask you, men of all classes, to come forward voluntarily and take your share in these fights."

Rowell to Succeed Laurier as Liberal Leader

Principal Happenings at Capital When Parliament Reassembles.

Ottawa, October 21.—When parliament meets in January, interest will be centred in the government's railway policy, the extension of the parliamentary term, and the Liberal leadership. There will be no additional customs taxes, as the war revenue measures of last session have been successful in checking decline in the customs returns, but additional taxation by a percentage of war order profits and also by an income tax may be proposed.

DOMESTIC LOAN.

There will be a domestic loan of from \$50,000,000 to \$100,000,000. Vacancies in the senate will be filled, which will reduce the Liberal majority. On good authority, it is stated that in all probability Sir Wilfrid Laurier will make his last speech in parliament. He will close his parliamentary career in placing country before party, and will cease political activity after a patriotic appeal to devote himself to energy to fighting the empire's foe, and not weaken her by political dissension. It would be a splendid conclusion to a striking political career.

He has already chosen his successor, and it is Newton Wesley Rowell, K.C., leader of the opposition in Ontario. He can guarantee Rowell's succession to leadership only by such a course as has been outlined. His party will obey his demand, but the party's own choice if untrammelled would be from within its own ranks. Rowell is the best available man, and Sir Wilfrid is anxious that his mantle fall upon him rather than upon one less worthy.

Sir Wilfrid would retain his seat in parliament, but the political and his designated successor, while he would be consulting counsel.

Canada's army will have by that time grown from a division of 20,000 men, the first request of the home authorities, to 200,000 men, or 10 times as many as was first thought necessary. Ten army divisions instead of one, and in all probability another ten will be required. This means a sober, earnest assembly, and the conserving of resources for the conflict and for that alone.

Sport Jottings

Leo Brown, a Red Deer boy, was prevented from taking part in the Calgary Canuck-Edmonton Varsity game for the senior provincial rugby honors by the former by an injury to his eye.

Provided some energetic citizen takes hold of the present apathy for a skating rink or sufficient one of the realm is provided to construct a real one which is highly improbable at this stage of the game, prospects for good hockey in the city during the coming winter are decidedly rosy. Last year's aggregation, with the exception of goal guards, Ivan Greene, now with the 12th O.C.M.R., is intact, while Norman Hamley, the clever centre of two years ago, is once more available. Gordon Wilkins, of the Imperial Bank staff, last year with a Wetaskinwipette, is a possibility for the position of net guardian.

Robt. B. Ward, Vice-President of the Federal Baseball League and President of the Brooklyn Club, passed away at his home at New Rockville, N.Y., on Monday evening last, after a brief illness.

Secretary J. Mann of the Alberta Amateur Hockey League Association announces that the annual meeting of the League will be held at Calgary on the afternoon of Saturday, November 6th.

The San Francisco Seals, under the management of Harry Wolcott, formerly of the New York Highlanders, won the pennant in the Pacific Coast League which concluded its schedule last week.

Outfielder Herbert Moran, and catcher Bert Whaling of last year's world's champion Boston Braves, have been released to Venice Club of the Pacific Coast League. In return Manager Hallings landed without the Gondola city's slugging outfielding.

Frank Moran, the Pittsburgh heavyweight, knocked out Jim Coffey, the Dublin Giant, in the third session of their ten round go at New York Wednesday night. By this victory Moran earned the right to meet Jess Willard, the present holder of the world's heavyweight championship.

Johnny O'Leary, the Canadian lightweight champion, clearly outpointed Patsy Drouillard, the Windsor boxer in a 12 round battle at Winnipeg on Monday of last week.

German Submarines Lose Effectiveness

London, October 22.—During the week ending October 20, only one British steamer, the Salerno, was sunk by a German submarine. This is the lowest record in British ships sunk for consecutive 10-day periods. Unofficial reports say that the British submarines have added three more ships to their bag in the Baltic during the last 24 hours.

HER DREAMS CAME TRUE

Life Unbearable from Indigestion Health Restored by "Fruit-Lives"

MELIE C. GAUDREAU
Roche P.Q., Jan. 14th, 1915.
"I suffered for many years with terrible indigestion and constipation. I became thin and miserable. I had frequent dizzy spells and became so run down that I never thought I would get well again.

A neighbor advised me to try 'Fruit-Lives'. I did so and to the surprise of my doctor, I began to improve and headed me on with 'Fruit-Lives'. I continued this medicine and all my indigestion and constipation was relieved. I consider that I owe my life to 'Fruit-Lives' and I want to say to those who suffer from indigestion, constipation or headaches, try 'Fruit-Lives'. Give this lovely fruit medicine a fair chance and you will get well the same as I did!"

"Fish or Cut Bait"

The following poem, in the Wals Mason style, has been dedicated to those who will be invited to subscribe to the Local Patriotic Fund, and is eloquent in its simplicity:

"We've had a twelve month now of war, but the end's not yet in sight, and the challenge comes to every man to either pay or fight. It's not the time to huan or haw, or air your hobby whims—it's up to you to see just now that the British Tommy wins. It's not the time to count on gain, or fatten up your purse, while your brothers fight to rid the world from a war-mad ruler's curse. The man who stays at home just now has got to foot the bill, and it's just as well to do the thing with a cheery British will. The man who leaves his home, his king, who leaves behind him all, to put the khaki color on and heed his country's call—he's made a sacrifice that's real, and the man who stays at home has got to bear his burden here without a grouch or groan. It's not a day to count the cost or what the tax will be when the empire's fate hangs on the beam in this fight for liberty. When strong men march away to war, our fathers and our sons, to face a blighted Belgium from the curse wrought by the Huns—we've got to play the part of man—it's not the time to shake—we've got the blood of Wellingtons of Nelson and of Drake. The call's gone forth to every man, alike to small and great—if you can't go with the fishermen you'll have to cut the bait."

British M.P's Take Many Miners to Britain

NELSON, B.C., October 20th.—Thomas Richardson, British member of Parliament, and Robert Baird, members of the commission which is in Canada to give an opportunity to commercial miners to cross the Atlantic to work in collieries in the United Kingdom, passed through Nelson last night on their way east. At Vancouver Island they secured 200 miners. After visiting the Crow's Nest district they will be in Calgary on Monday, Swift Current, Tuesday, and Regina Wednesday, with the purpose of giving miners who are at present engaged in harvesting, an opportunity to go with the party.

General Botha Has Triumphed at the Polls

Gen. Smuts, His First Lieutenant, Elected

London, October 21, C.A.P.—A special cable from Johannesburg says that General Botha's victory at the polls may be even greater than his supporters anticipated, unless there are surprises in store from the rural districts.

General Smuts, his first lieutenant, was returned for Pretoria West by an overwhelming majority, and Sir Percy Fitzpatrick was returned for Pretoria East. Under the system of voting, returns will take a long time coming in, but the news of the Smuts' victory, published broadcast, has been received by wild acclamation in all districts, and goes to indicate that Botha's supporters have received overwhelming support, which is likely to be emphasized when more results come to hand.

BULGARIA'S TREACHERY.

Bulgaria's alliance with Germany and Austria dates back to April last, which goes to show that she was only shamming neutrality and was playing with Britain and France for time on behalf of her friends. That the game was a dangerous one, we feel sure she will be convinced before very long, and that she will get all that is coming to her as our profound wish, as she has been looking for trouble for months past. As the Russian diplomat replied, on being asked what about Bulgaria after the war, "There will be no Bulgaria after the war."

WINTER IS COMING.

Every effort should be put forth by the farming community during the next week to prepare for winter. About the fifth of November the ground freezes, and winter often sets in at that time. All machinery should be placed under cover, buildings should be banked, and winter quarters prepared for cattle. Make hay while the sun shines. Now is the time to prepare for winter.

THE PATRONAGE SYSTEM.

The Lethbridge Telegram has this to say of the patronage system, but the Telegram might have gone further and pointed out that in Manitoba, where the patronage system had been continuously denounced by the opposition, the Liberal party are chopping off official heads and dismissing by the wholesale those who are not of the same political stripe as themselves:

"To make a virtue out of necessity is a very simple matter. This explains the attitude of Liberal journals when they bellow forth against the patronage system with the knowledge that the party they represent is not the government of the day. The patronage system has been ingrained into Canadian politics by fifteen years of the Laurier regime in which it was exercised for all it was worth. It is rampant even today in Liberal circles where the provincial government as in Alberta holds sway. During the period of the Laurier administration there was not one office holder in Lethbridge a Conservative. And the Borden government is expected with barely four years in office to rid the body politic of an evil from which it is said to be suffering and which these journals are forgetting have been grafted into it by the Liberal government who carried out the patronage system to the bitter end, even to the extent of wasting forty millions of the people's money in contracts over the Transcontinental railway.

If Liberal papers, like the local contemporary, see fit to denounce the patronage system, we should be inclined to think they were sincere in their motives if they alluded not only to evils which they lay at the door of the present government, but to those greater evils which existed under Sir Wilfrid Laurier, and to evils which in this city are today being worked by the government at Edmonton."

United States government reports show that the British blockade of Germany and Austria has been highly successful in making foodstuffs high-priced. In Austria, at a certain famous watering place, bacon is selling for 47 cents a pound, cooking butter for 54, coffee from 45 to 75, flour 7, lard 45, pork 48, veal 43, beef 36, rice 14, sugar 10, soap 18, kerosene 56 cents a gallon, eggs 39, potatoes 85 a bushel, and so on. If the British navy cannot starve the Teutons out, it can make them pay dearly for what they get, and thus help to educate them on the consequences of war.

British soldiers' pay, compared to that of the German soldier, is very large, and the Canadian soldier gets even higher pay. The German soldier gets one cent a day, and even that may be taken from him to help defray war expenses.

Lieutenant-Governor Brett Installed in Office

Hon. Dr. Brett, the second lieutenant-governor of Alberta, was sworn into office at Edmonton on Wednesday with imposing ceremonies. Hon. Dr. Brett replaces Hon. G. H. V. Duley, who has been lieutenant-governor of Alberta since the province was formed ten years ago.

Adolphe Boudreau, clerk of the privy council at Ottawa, read the warrant of commission, which is endorsed by H. R. H. the Duke of Connaught and Hon. C. J. Doherty, minister of justice.

His Honor Lieutenant-governor Brett received the great seal of the province from the Hon. A. L. Sifton in the absence of the provincial secretary, Hon. A. J. McLean, and then returned it, the seal to remain in the custody of the government.

After the signing of the register, Premier Sifton congratulated his honor on his appointment and presented two members of the cabinet who were present—Hon. J. Boyle, minister of education, and Hon. Charles Stewart, minister of public works.

A freckle-faced girl stopped at the post office and yelled out:

"Anything for John Murphy?"
"No, there is not."
"Anything for Jane Murphy?"
"Nothing."
"Anything for Ann Murphy?"
"Nothing."
"Anything for Tom Murphy?"
"No."
"Anything for John Murphy?"
"No, not a bit."
"Anything for Harry Murphy?"
"No, not for Pat Murphy, nor Denis Murphy, nor Peter Murphy, nor John Murphy, nor for any Murphy, dead, living, unborn, native or foreign, civilized or uncivilized, savage or barbarous, male or female, black or white, naturalized or otherwise, soldier or citizen. No, there is positively nothing for any of the Murphys, either individually, jointly, severally, now and for ever, one and inseparable."

The girl looked at the postmaster in astonishment. "Please," she said, "will you see if there is anything for Bridget Murphy?"—Fit-Bits.

Ponoka

Mr. Frank Newton, who is connected with the hospital staff at Ponoka, has a small silver coin of the size of a Canadian ten cent piece, and which bears the earmarks of being very old, very rare, and very valuable. Mr. Newton was referred to the University of Alberta where he was apprised of the meaning of the lettering on the coin and advised that it had been minted in the year 95 A.D. He was also told that it had probably been buried in England for centuries, and came to light only in comparatively recent years. It is a Denarius of the Emperor of Britain. On the obverse side the abbreviations for the following Latin words appear—Imperator, Caesar, Domitianus, Augustus, Germanicus, Pontifex Maximus, and on the reverse side Imp. XXII, Consul XVII, Censor Proculus, Pater Patriae.

Saturday, October 30th, 1915, is the last day of the five per cent. discount on taxes. The city needs funds for the payment of debenture coupons and other liabilities falling due in the next few days. It is earnestly requested therefore that the taxpayers make a special effort to pay their taxes.

City Employees Up At Edmonton on Half Salary

Decision of Capital City's Commissions to This End Will Go Into Effect at Once—Employees Unanimously Agree to Accept Reduction

Edmonton, October 23.—At a special meeting of the city commissioners, it has been decided to cut the salaries of the civic employees in two.

A resolution from the Civic Service association, offering to accept \$40 per month for single men and \$60 per month for married men was presented, but the commissioners decided on another course, that of half pay.

Instead of employees being paid fortnightly for two weeks' work, as has been the case, the employees from now on will have to work four weeks to receive two weeks' pay. That is to say, every alternate two weeks a pay check will be forthcoming, while the balance will remain in escrow with the city and be refunded at the end of the year.

Some time towards the latter end of last week, the utility superintendent had a conference with the commissioners and the high-salaried officials thought it best to accept half pay. The employees receiving the smaller salaries at a meeting last night unanimously agreed to accept a uniform wage as stated.

The decision of the commissioners goes into effect right away.

No Session of Dominion Parliament Until After New Year

Ottawa, October 23.—The Citizen says tonight: "It is now taken for granted that no session of parliament will be held this fall. November sessions for some years have been out of style, the experience showing that little was ever accomplished until after Christmas. The war situation in Canada is well handled, and the legislation now on the statute book is adequate at least until next session. There is consequently every indication that parliament will not be called until the usual time in January, and that the legislation to be brought down then will be pretty well confined to that which is directly with the war. The question of extending the life of parliament will come up, however."

Eckville

Owing to the absence of some of the officers, the last usual meeting of the Eckville Camp, Modern Woodmen of America, was postponed. Special effort will be made to increase the membership of our local camp this winter, and members are requested to attend as regularly as possible.

R. H. Woods, our enterprising cheesemaker, is on a business trip to Calgary. Mr. Woods has purchased a cheese factory and creamery site from A. Litt and is already getting things in shape.

Postmaster O. M. Forhan has gone south for a few weeks. J. C. Warburton is running the mail route during his absence.

As a centre Eckville is gradually coming forward. We now have a resident cattle and hog buyer, as well as the regular buyer from Red Deer. We will have an up-to-date cheese factory and creamery in the spring; we have one of the best stocked farm implement agencies west of Red Deer; two first class general stores, a drug store, a pool room, a lumber yard, a modern hotel, a boarding house, a second-to-none blacksmith, a livery barn with motor livery attached, a resident doctor, and the whole surrounded by as fine a strip of mixed farming land as there is in the west, settled by prosperous farmers! How's that? This is no real estate bluff, but genuine facts, and we welcome any enquiries from those interested. The Eckville Improvement Co. will be pleased to give you further information.

It is expected that Dr. Stork will soon see the necessity of taking up residence in Eckville. He has been busy again in this district. The latest arrivals are a son to Mr. and Mrs. Eckford, and a daughter to Mr. and Mrs. McPaul.

Mr. and Mrs. Karth Matchett have taken up residence in the old home.

Allies Pressing Back Germans Who Cannot Get Reinforcements

Victory of French at Lemesnil in Champagne Is Very Important One

London, October 25.—British correspondents in France have just disclosed the fact, made known to them by the British staff, that even after the Anglo-French offensive in September the Germans had the greatest difficulty in securing new reinforcements to meet that adventure

and had to call upon men just returned from Russia for rest to fill the gaps in the western lines. From this it is argued that the Germans cannot spare a great many men for the Balkans, especially as the Russians are keeping them fairly busy from the Baltic to the Romanian

border. The Italians, by the offensive, are compelling the Austrians to strengthen their lines, and the French by their capture of the strongly fortified village north of Lemesnil, in Champagne, have shown that they have not yet finished their effort to break through. The French success is considered important because the capture of this fortified area clears the ground for another general offensive in Champagne.

For the same reason the British are trying to force the Germans out of their redoubts and the slag heaps to the south of La Bassée. These, however, are only preparatory preparations, while the Italians are in the midst of a great offensive which has already gained for them many valuable vantage points, and

according to Rome dispatches, may any day place them in possession of the fortress of Gorizia.

The Russians are fighting pitched battles in the Riga and Dvinsk regions in an effort to retake the ground won from them by Field Marshal von Hindenburg, last week. The Russian attacks southeast of Riga have been repulsed, according to the Germans, as were those undertaken northwest of Dvinsk. The German forces, however, which crossed the Housat, north of the town of that name, withdrew in the face of a superior Russian army.

It is also claimed by the Germans that Russian attacks in the Ialok district, south of Dvinsk, were repulsed, and that the Austrians have broken through the Russian lines over a front of more than four kilometers (2½ miles) west of Komonow.

Allied Victory in Balkans Needed to Impress Neutrals.

London, October 22.—Greece has declined for the present the allies' offer to her of Cyprus and other concessions, territorial and financial, in return for her adherence to the Serbo-Greek treaty for alliance, which would mean her military aid to assist in meeting the Bulgarian and Austro-German attacks against her former ally.

Greece's reply to the offer, which reached the foreign office tonight, is a lengthy one, and, while it has not been made public, there is reason to believe that the Hellenic kingdom bases its decision not to join the allies on the ground that the Anglo-French forces landed at Saloniki are not, in the Greek government's opinion, strong enough for the task allotted it.

The refusal to accept the allies' offer was not unexpected, as it has been often stated in official circles that both Roumania and Greece were withholding their assistance until the allies either won a decisive victory or proved to the Greeks and Roumanians their ability to do so, or until the operations had reached a stage which would assure them that their countries would not be overrun by the forces of the central powers or their Turkish and Balkan allies.

SERIOUSNESS REALIZED.

There is no inclination here or in the capitals of other members of the quadruple entente powers to minimize the seriousness of the situation of Serbia. The Austro-German and Bulgarian campaign is developing slowly, but the plans are now fairly clear. The Austro-German centre is advancing down the Morava Valley from Semendria, while the Bulgarians have got across this valley to the south and command the Belgrade-Nish-Saloniki railway. The Austro-Germans have three other forces engaged on the northwestern coast of the Balkans, one at Belgrade, and the third, which has not yet crossed the Danube, about Osseva.

The Bulgarians also have other armies moving across the frontier near Zadar, Piro, and Nish and further south near Egri Palanka and Kohane, and claim to be already in Belgrade, on the Vardar River. It is this latter force the Anglo-French troops landed at Saloniki will probably first encounter.

MORE FAVORABLE ON OTHER FRONTS.

On the other fronts the operations are considered to be more favorable for the allies. The Russians, taking advantage of the removal of German troops on the other parts of the front to reinforce Field Marshal Von Hindenburg for his drive at Riga, which seems to have been checked, have been dealing some fierce strokes at the German centre on the Styra and in Galicia. In all these they have had at least initial successes.

The latest offensive by the Russians was aimed north of Tarnopol, where the carrying of Austro-German positions gave the Russian soldiers nearly 8,000 prisoners, two howitzers and a number of machine guns. These prisoners, added to those taken near Paranozh, the day before, make a total of over 11,000 Austrians and Germans captured in two days.

The Germans, on the other hand, claim that their counter-attacks, both on the Styra and at Baranovitch were successful, the Russians captured totalled upwards of 4,000. The Germans admit, however, the loss of six guns on the Styra.

Britain Has Offered Island of Cyprus as a Free Gift to Greeks

London, October 21.—Great Britain has made a formal offer of the Island of Cyprus to Greece as soon as Greece undertakes to intervene in the war on the side of the Allies. The Daily Telegraph makes this announcement this morning.

The Daily Telegraph in an editorial claims that its report is based on good authority. The newspaper points out that the offer differs from the German offer to Greece inasmuch as it is not contingent upon the final triumph of the triple entente, but would take effect as soon as Greece performed her part in the suggested agreement.

"The sooner we all recognize that purely chivalrous motives are not prominent in the Balkan politics of today, the better," the Daily Telegraph adds. "The cession of Cyprus to the state to which most of its inhabitants are related by race and

Quality and Grade of Western Wheat Making a Record

Ottawa, October 20.—The western crop this year is not only a record one in quantity, but apparently also in quality and grade. The last figures compiled by the department of trade and commerce show 1,975 cars of 1 hard wheat inspected at Winnipeg as against only 14 cars of this high grade last fall. They further show that 26,797 cars of 1 Northern were inspected as against 6,885 cars last fall.

On the other hand only 6,021 cars No. 2 Northern as against 12,881 were inspected, and 2,379 cars No. 3 Northern as against 9,939 in 1914. The total number of cars of all grades inspected 46,461, as against 38,279 for the same period last year. Cars are now being inspected at Winnipeg at the rate of 10,000 per week.

India Ships New Shells

London, October 21.—It is announced that shipments of shells manufactured in private factories and workshops in British India have begun. This is regarded as a report which it says passed the Russian censor, that Japan has undertaken to supply Russia with munitions in return for a complete cession of the island of Sakhalin.

The island of Sakhalin, 570 miles long, and from 17 to 90 miles wide, lies between the east coast of Asia and the northern islands of the Japanese Archipelago. Russia owns the northern and Japan the southern end of the island.

A fierce prairie fire, believed to have been started from the C. P. R. right of way through the C. P. R. section near burning firewards along the track east of Castor, destroyed thousands of dollars worth of grain and hay in an area of three miles in width and fifteen or twenty miles in length.

William Morrison was in charge of the outfit, but was not present at the time his sister, after moving to Mr. Hick's, when Mr. Hicks saw the separator on fire. The same day Judge Leach returned an order, under the application of Corey, for the sale of the outfit.

Like other schools, Ridley College, St. Catharines, Ont., lost many students through the war, but the complement of boys is full, as it ought to be, considering the excellent character of the school. To fill the void of the vacancies on the staff, Mr. Campbell, of Prince of Wales College, Charlottetown, P. E. I., and Dalhousie University, Halifax, and Mr. Chas. F. Stein, B. A., of Trinity College, have been appointed respectively classical and English and history master—Church Hill, October 14th, 1915.

A. W. G. Allen, Secretary of the Union of Municipalities of Alberta, and Mayor of North Red Deer, and Mayor Carswell attended the annual meeting of the Union on Wednesday and Thursday of last week at Bassano. There was a goodly attendance of delegates from almost every leading center of the province, and much valuable information was gained by those present. Mayor Costello, of Calgary, was elected president of the association for the next year, and Mr. Allen, secretary. Edmonton will be the next place of meeting.

The mammoth murphies that featured and constituted the window display of our office for the past month, are no more, that is, so far as we are concerned. It happened thus: A local theatre instituted a potato contest on Saturday afternoon last, and scarce five minutes had elapsed after the editor had returned to his sanctum, following the holiday merriment, when a party of young fellows invaded the sanctum precincts and, casting envious eyes at our monstrous tubers, enquired in a friendly way whether they might utilize them for the afternoon, faithfully promising their safe return. After due deliberation, the editor gave his consent, and they duly grasped their prizes, the invaders took their departure. Doubtless our much vaunted specimens brought home a goodly share of the bacon, but as yet our window ledge pines in vain for its one-time companions.

C. Hamilton, Sr., was a visitor to Wetaskiwin over the week end.

Mr. and Mrs. H. D. Moore returned to the city from Edmonton on Friday.

A word to the wise is sufficient—Be there: At Rose's big sale at the Checker Board Store.

Mrs. F. B. Harrison, of Kelowna, B. C., who is in the city on business, is the guest of Dr. and Mrs. Collicutt.

C. J. Rutter, Jr., was taken sick with appendicitis in Gadsby on Sunday night. He arrived in the city yesterday and was operated on last night.

Commissioner A. T. Stephenson, who has been seriously ill for some time, was able to get downstairs on Monday, and it is hoped his recovery will now be rapid.

Philip, son of Mr. and Mrs. Thos. Meeres, sustained a badly lacerated leg as the result of a leap from the roof of a barn into a bare fence yesterday. He was brought to the city for medical attention.

Messrs. Bond and Boyle, of the Red Deer packing plant, are attending to the final details in connection with the proposed plant before leaving for the east on Saturday next. They will interview leading financiers of Eastern Canada and the Eastern States, and they are practically assured that there will be no difficulty in securing all the funds necessary to form one of the strongest packing concerns in Western Canada.

MOST LAUGHABLE V.C.

Footsore Lieutenant Wanted to Recover His German Glasses

A pair of field glasses "made in Germany" was responsible for the loss of a trench by the Germans in circumstances at once laughable and inspiring. The hero was a young British subaltern, who, on the 24th, the subaltern had a pair of Zeiss field glasses, of which he was extraordinarily proud. He bored everyone stiff by talking about them continually. One day his company had been ordered to fall back on their support trenches owing to a sudden German attack. All at once the subaltern shouted, "Good heavens!" and bolted through the communication trench. A sergeant, who was very fond of the young officer, went after him, and came back shortly after to the commanding officer to report: "Sir, he has recaptured the trench, but he has lost the glasses." The sergeant collected his men, and again advanced to the trench, where he found the subaltern, with a revolver in each hand, in front of a whole row of Germans, who had laid down their arms, and were holding up their hands. The commanding officer congratulated him, but pointed out the recklessness of his action. "Sir," replied the subaltern, "I wanted to get my glasses back."
